THE 1988 N.S.L. TOP FIVE CHAMPIONSHIP SERIES

The time has now arrived for the National Soccer Leagues 'Top Five Championship' Series to be played to determine the 'Champions of Australia'.

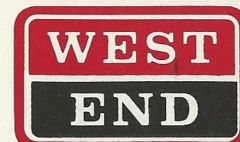

In past years and in most overseas countries, the team which finishes top of the premiership table is declared the 'Champions', however this year it was decided that as is tradition in this country, the Championship would be decided by the winning of the 'Top Five Championship' Series.

This year when after 26 gruelling rounds of the competition, the top three teams were still equal on points, separated only by goal difference, it would seem the only appropriate way of settling the age old argument of which is the better team, or who should be entitled to wear the mantle of 'CHAMPIONS OF AUSTRALIA'.
